Dear Ms Skinner:

The United States Federal Government (herein US Federal) and Client Mallard's HR Block Preferred accountants have said UBS has no reversing journal entries or negative number zeroing out of the mandatory 2008 US Federal compliance documents. In contrast, Muriel Seibert was immediately forthcoming with pertinent 2008 US Federal mandatory compliance (Exhibit MMMMM) for Client Mallard, his accountants and the pertinent US Federal Agencies.

Through the direction of UBS AG Chairman Honorable Kaspar Villiger your office is on obligated record as competently assisting on this persistent US Federally mandatory disclosure (Exhibit Y). Unfortunately, since your office letter of July 29, 2009 (Exhibit Y) we have only seen the likes of UBS General Counsel David Hauphauser (recently prosecuted for UBS insider trading) and UBS Associate Counsel Craig Darvin outsource this UBS US Federal obligation to controversial US lawyers (Exhibit WW, InternalRevenue.com issue 1) to deviously stall UBS US Federal compliance through continuing misrepresentations of the truth. Client

Mallard personally thanked then UBS AG Chairman Villiger for reinstating his administrative support. UBS outsource lawyers Michael Starr, Sarah Soto, Stephen Horvat et al are repeatedly on record as erroneously saying Client Mallard is a former Customer or Client.

This is in direct contravention of Chairman Villiger's directive. Muriel Siebert has never defrayed from calling Mallard a Client and continues to send Client Mallard administrative support. UBS does not.

We specifically ask your office to reinstitute the administrative UBS support for Client Mallard. Would you send to Client Mallard precisely the same 2008 US Federal mandatory documentation format as Muriel Siebert (Exhibit MMMMM)?

We await a timely reply from your office.

Cordially,

Herbert K Mallard  
UBS Client
